PROFILE

As a Senior Graphic Designer and Technical Artworker with over 14 years of experience in the industry, I have the expertise necessary to lead and manage design projects from concept to completion.

I am well-versed in the Adobe Creative Suite, with a particular focus on InDesign and Photoshop, and have plenty experience with Final Cut Pro X for video editing.
My background in commercial photography, art direction, and digital illustration also gives me a strong foundation in visual storytelling.

I have experience leading teams and managing projects. I am able to work collaboratively with others to develop innovative solutions and guide projects from start to finish. I am a natural problem-solver, with strong communication and organizational skills that allow me to keep projects on track and on schedule.
